

VA PATIENT SAFETY FELLOWSHIP

The VA National Center for Patient Safety, in cooperation with the VA Office of Academic Affiliations is pleased to offer a fellowship opportunity in Patient Safety beginning July 2019. The fellows are based at one of eight VA medical center sites: Ann Arbor, MI; Indianapolis, IN; Lexington, KY; Milwaukee, WI; Philadelphia, PA; Pittsburgh, PA; Tampa, FL; and White River Junction, VT. The fellowship is open to any health care professional with a Master's degree or higher (such as physicians, nurses, psychologists, pharmacists, social workers, health care administrators, public health professionals, and engineers). The one-year fellowship is designed to develop the next generation of leaders in patient safety. Fellows receive

intensive training in clinical aspects of patient safety, health services research methodology, and leadership.

Start or rejuvenate your career. Join VA for a year of mentoring and professional development. Additional information and fellowship requirements can be found at <http://www.patientsafety.va.gov/about/jobs.asp>

To apply, send a cover letter and CV to the program director(s) at the sites of interest.
