VA PATIENT SAFETY FELLOWSHIP

The VA National Center for Patient Safety, in cooperation with the VA Office of Academic Affiliations is pleased to offer a fellowship opportunity in Patient Safety beginning July 2020. The fellows are based at two NCPS sites and six VA medical centers: Ann Arbor, MI; Indianapolis, IN; Lexington, KY; Milwaukee, WI; Philadelphia, PA; Pittsburgh, PA; Tampa, FL; and White River Junction, VT. The fellowship is open to anyone with a Master’s degree or higher in health care and related fields (e.g., physicians, nurses, psychologists, pharmacists, social workers, health care administrators, public health professionals, engineers, etc.). The one-year fellowship is designed to develop the next generation of leaders in patient safety.

Fellows receive intensive training in clinical aspects of patient safety, health services research methodology, and leadership.

Additional information and fellowship requirements can be found at http://www.patientsafety.va.gov/professionals/training/fellows.asp

To apply, send a cover letter and CV to the program director(s) at the sites of interest.
